Experienced Full Stack Developer with over 2.5 years of dedicated expertise in **ReactJS** and **Node.js**. Adept at crafting robust and scalable code, with a strong emphasis on maintainability. Proven track record in designing and implementing web applications and RESTful APIs. Proficient in utilizing **Azure** services to enhance application performance. Eagerly seeking an engaging opportunity that will enrich my professional journey while allowing me to contribute significant value.

EXPERIENCIA

Baufest & Galicia Bank — June 2022 - Present

Frontend Engineer

- Currently, I am developing a web application using a micro frontend architecture. Every day, I develop the product and I am involved in the search for excellence in solutions that add value to the final product.

Tech stack: React, React ContextAPI, Module Federation, OpenShift, Jenkins, Azure, TypeScript.

Vortex IT — July 2021 - May 2022

Mobile Developer

- I developed mobile apps and looked to speed up the development times, using clean code, modular code and reusable components.

Tech stack: React Native, Redux, TypeScript.

Full Stack Developer

- I reduced the number of bugs by refactoring a web application that allows managing sales, products and account statements of a client company, identifying dozens of bugs and fixing them using clean and modularized code.

Tech stack: ReactJS, NodeJS, NestJS, PostgreSQL, ExpressJS.

JavaScript Mentor

- I increased the number of profiles that achieved the goals of the company's internal bootcamp, hiring 80% of the applicants, proposing and executing another teaching modality oriented to active practice.

Tech stack: ReactJS, ExpressJS, NodeJS, MongoDB & Mongoose, MySQL & Sequelize

Municipalidad de San Miguel de Tucumán, Full Stack Developer — January 2021 - June 2021

- Reduced process times by 50% by developing an administrative web system to efficiently manage incoming information on a day-to-day basis.

Tech stack: ReactJS, DotNet Framework, PostgreSQL.

SKILLS

Programming Languages: JavaScript, NodeJS.

Frameworks: ReactJS, NestJS.

Databases: MySQL, PostgreSQL, MariaDB, MongoDB.

Tools: Git, Jira, Slack, Trello.

EDUCATION

Universidad Tecnológica Nacional – Bachelor in Computer Science, 2022 - In Progress.

Soy Henry – Bootcamp online, Argentina. Full Stack Developer with **PERN** stack, April 2020 to December 2022.

CERTIFICATIONS

Inglés - Nivel 3 de 5 – Institute: Go! Idiomas. 2022.

Microsoft Certified: Azure Fundamentals – Microsoft. 2023.
